ABOUT ME

A committed Computer Science student with a strong interest in Software Engineering, Artificial Intelligence, and Data Science. Excited to leverage my technical abilities and academic background to tackle real-world problems.

EDUCATION

Bachelor of Science

Computer Science and Engineering

American International University-
Bangladesh (AIUB)

CGPA: 3.97

2022- Present

ACADEMIC AWARD

DEAN'S LIST HONORS

Issued by American International
University-Bangladesh (AIUB)

TECHNICAL SKILLS

C++

JAVA

C#

PHP

Python

Postman

HTML

Typescript

PostgreSQL

TypeOrm

My SQL

TensorFlow

keras

ASP.NET

PROBLEM SOLVING - BEGINNER

EXPERTISE

- Creativity
- Critical Thinking
- Leadership
- Verbal and Communication Skills

PROJECT

News Management System (API-based)

Tech: ASP.NET Web API, C#, Entity Framework

A RESTful API for managing news articles with CRUD operations, search functionality, DTOs, and a layered architecture.

<https://github.com/abdullah-nadim/News>

Shop Management System

Tech: ASP.NET MVC, Entity Framework

An admin-focused product inventory manager with CRUD features and seamless DTO conversion.

https://github.com/abdullah-nadim/Shop_Crud

Movie Ticket Booking System

Tech: ASP.NET MVC, Entity Framework

A ticket booking app with movie management, user authentication, role-based access, and pagination.

<https://github.com/abdullah-nadim/MovieTicketBookingSystem>

Entrepreneurial Idea Showcase Platform

Tech: Frontend - Next.js, Backend - NestJS, PostgreSQL, TypeORM, JWT

A platform enabling entrepreneurs to submit, evaluate, and secure investments for their business ideas. It supports multiple user roles, including Entrepreneurs, Judge-Sponsors, Event Coordinators, and Admins, ensuring seamless idea management, event coordination, feedback, and investment tracking.

<https://github.com/abdullah-nadim/Entrepreneurial-Idea-Showcase-Platform>

Resturant Billing System

Tech: C#, SQL Server, Winforms

This desktop application allows users to add, update, or delete menu items with a search bar for quick access. It also features a sell report module for managing receipts and searching invoices.

<https://github.com/abdullah-nadim/Resturant-Billing-System>

Music Player

Tech: C#, Guna UI

A feature-rich music player built using C# and Guna UI, designed to play various genres of music, manage playlists, and offer interactive playback controls.

<https://github.com/abdullah-nadim/MusicPlayer>
